SPECIAL OFFERING OF PHALAENOPSIS SEEDLINGS IN TRANSPLANTED FLASKS

These 250cc transplanted flasks of Phalaenopsis hybrids average 150 or more vigorous seedlings per flask. While they could be shipped any time in flasks, if you want to save express charges by having them fly to you "BARE ROOT", shipment would not be until April 1st - when the seedlings will be better size for communities. Also, it is generally conceded Spring is the best time to shift them from flask to communities.

BUY NOW for first choice. Your flasks will be tagged for you for April shipment, Bare Root, Air Mail Prepaid, or Express Collect, as you choose. Cash with order, please.

One flask of WHITE Phalaenopsis.....\$15.00
Two flasks of WHITE Phalaenopsis..... 25.00
Three or more flasks WHITE Phalaenopsis, @ \$10.00 per flask.

One flask PH-25, PINK Phalaenopsis.....\$20.00
Two flasks PH-25, PINK Phalaenopsis..... 30.00

OR, ONE FLASK OF EACH cross listed (Two White, One Pink).....\$30.00

Ph-22 PHALAENOPSIS CHIEFTAIN X PHALAENOPSIS CHIEFTAIN - This is not a "self" cross but a cross between two especially fine Chieftains. The pod parent, P. CHIEFTAIN VAR. SAN-MAR-KEN, was a 5½-inch, perfectly formed, round White bloom of extremely good form and substance. P. CHIEFTAIN, VAR. LA PALOMA, the pollen parent, has equally good form and substance, but not quite as large, 4½ inches across. The cross is expected to produce especially grand White blooms.

Ph-23 PHALAENOPSIS CHIEFTAIN X P. DR. HENRY EVERSOLE - The pollen parent is a cross of P. Altadena and P. Winged Victory - the latter fostering many of the top quality White Phalaenopsis hybrids in recent years, including our own P. GRACE PALM, which cross has been walking off with awards all over the country. This was an especially fine pair of PURE WHITE Phals., and should produce more awards.

Ph-25 PHALAENOPSIS DORIS VAR PINK CLOUD X P. DORIS X P. ELINOR - Like all the top quality PINK Phalaenopsis crosses, this one probably won't grow quite as rapidly as the White hybrids, but it will be worth waiting the little extra time to see the blooms! Visualize the fine form and heavy substance of P. DORIS, with the delicate but not faded pink color of a baby's blush. Modern pink hybrids like this are very far removed from the old Schilleriana crosses. Substance and keeping qualities equal the best White crosses. LIMIT: Not more than two flasks of this cross per customer.

DANIEL RYERSON, BOX 805, HOMESTEAD, FLA.

SPECIAL OFFERING OF PHALAENOPSIS SEEDLINGS IN TRANSPARENT FLASKS

These 25000 transparent flasks of Phalaenopsis hybrids average 100 or more top-
growing seedlings per flask. And they could be shipped any time in Alaska, if
you want to save express charges by having them fly to you "BARE ROOT", shipment
would not be until April 1st - when the seedlings will be better able to handle
transit. Also, it is generally conceded Spring is the best time to shift them from
flask to greenhouse.

BUY NOW for first choice. Your flasks will be tagged for you for April shipment.
Bare Root, Air Mail Special, or Express Collect, as you choose. Cash with order,
please.

One flask of WHITE Phalaenopsis.....\$15.00
Two flasks of WHITE Phalaenopsis.....25.00
Three or more flasks WHITE Phalaenopsis, @ \$10.00 per flask.
One flask PB-35, PINK Phalaenopsis.....\$20.00
Two flasks PB-35, PINK Phalaenopsis.....30.00

OR, ONE FLASK OF EACH cross listed (Two White, One Pink).....\$30.00

PB-35 PHALAENOPSIS CHRISTIAN & PHALAENOPSIS CHRISTIAN - This is not a "self"
cross but a cross between two especially fine Christians. The parent
P. CHRISTIAN VAR. SAN-MAR-REN, was a 25-inch, perfectly formed, round white bloom
of extremely good form and substance. P. CHRISTIAN VAR. LA PALOMA, the pollen
parent, has equally good form and substance, but not quite as large, 4 1/2 inches
across. The cross is expected to produce especially grand white blooms.

PB-35 PHALAENOPSIS CHRISTIAN & P. DR. EMMY EVERSOLE - The pollen parent is a
cross of P. ALBERTA and P. WINGED VICTORY - the latter fostering many of the top
quality white Phalaenopsis hybrids in recent years, including our own P. GRACE
which cross has been winning off with awards all over the country. This
was an especially fine pair of PURE WHITE flasks, and should produce more awards.

PB-35 PHALAENOPSIS DORIS VAR PINK GLOW & P. DORIS & P. ELLIOT - Like all the
top quality PINK Phalaenopsis crosses, this one probably won't grow quite as
rapidly as the white hybrids, but it will be worth waiting the little extra time
to see the bloom! Varying the fine form and heavy substance of P. DORIS, with
the delicate but not faded pink color of a baby's cheeks, between pink hybrids
like this are very far removed from the old Seidlitz-type crosses. Substance and
keeping qualities equal the best white crosses. Little bit more than two flasks
of this cross per customer.
